ABOUT

Experienced iOS Developer specializing in building and optimizing high-performance mobile applications. Proficient in Swift and MVVM architecture, with a strong focus on creating user-centric experiences. Passionate about developing innovative, high-performance apps and staying up-to-date with the latest iOS technologies. Seeking a challenging role to contribute my expertise in crafting impactful and engaging mobile experiences.

SKILLS

- **Programming Languages:** Swift, Dart(Flutter)
- **API:** UIKit, SwiftUI, Auto Layout, Foundation, Combine, Unit Testing(XCTest)
- **Architecture:** MVC, MVVM, Clean Architecture
- **Tools:** Xcode, Git, CocoaPods, CI/CD fast-lane
- **Other Skills:** Agile, RESTful APIs, JSON, Firebase

EXPERIENCE

iOS Developer | Freelance | January 2024 - Now

- Designed and developed custom iOS applications for clients across various industries, ensuring high performance and user-friendly experiences.
- Implemented Clean Architecture, MVVM, and Dependency Injection to create maintainable and testable codebases.
- Integrated third-party APIs, including RESTful services, Firebase
- Provided consulting services for iOS app architecture, performance optimization, and security best practices.
- Collaborated with designers and stakeholders to transform ideas into fully functional iOS applications.
- Set up CI/CD pipelines using GitHub Actions for automated builds and testing.

iOS Developer | RS Group | December 2021 - December 2023

- Developed and maintained the RSMALL and Coolism applications, implementing new features and enhancing existing functionality.
- Integrated Firebase for real-time analytics, enabling data-driven decision-making.
- Implemented push notifications to improve user engagement and retention.
- Successfully deployed applications to the App Store, ensuring compliance with Apple's guidelines for a seamless user experience.
- Maintained a secure and version-controlled codebase using best practices.

iOS Developer | Brave group APAC (Thailand) | June 2019 - October 2021

- Developed a native iOS application with a modern UI/UX design for an enhanced user experience.
- Utilized Swift, Objective-C, and Xcode to build core application features, ensuring smooth performance.
- Designed and implemented a RESTful API for seamless backend integration.
- Successfully deployed the application to the App Store and maintained a secure, version-controlled codebase.

iOS Developer | ZBTH | December 2018 - February 2019

- Led the development of ZBTH, a digital wallet application, focusing on security and usability.
- Implemented new features, performed maintenance, and optimized the app for better performance.

iOS Developer | Index Asia Ltd. | June 2013 - November 2018

- Developed Yume100, a mobile game application, ensuring localization by adapting the language from Japanese to Thai.
- Performed continuous maintenance, optimization, and feature enhancements to improve user experience.
- Managed App Store deployment and maintained a secure, version-controlled codebase.

EDUCATION

Kasetsart University | Bachelor of Science in Computer Science | April 2007 – April 2011
